EDUCATION

University of Engineering and Technology

Bachelor of Science in Computer Science

- Member of ACM (Association for Computing Machinery) - Event Management Team.

WORK EXPERIENCE

Synplex

Full-Stack Developer

Sep 2024 – Present

Remote

- Delivered web solutions for multiple clients as part of [Synplex](#).
- Designed and launched **Utilify**, a scalable SaaS platform providing developer-friendly APIs for text analysis and media processing; onboarded 20+ users in beta.
- Delivered marketing websites for clients such as RoottMedia and Accso Finance, using Next.js to build responsive, conversion-oriented sites with integrated lead-capture forms.

Prodigy InfoTech

Web Development Intern

June 2024 – July 2024

Remote

- Built Restful APIs using Django and React for a fitness tracking app; optimized bundle size by 30% and enhanced UX by improving frontend-backend communication.
- Gained experience in **Git and collaborative development workflows**, managing code through **version control and pull requests** in a remote team setting.

PROJECTS

[My FitnessPal](#)

- A fitness tracking web app that helps users log workouts, monitor progress, and set goals.
- Stack:** React, Django REST Framework, PostgreSQL, Chart.js, JWT Authentication

[RoottMedia](#)

- A marketing website built in **Next.js** and integrated with **Strapi** (headless CMS) to enable easy content management, designed to funnel targeted traffic into lead-capture forms, optimized for performance and SEO.
- Stack:** Next.js, Strapi, Vercel

[PixelPulse](#)

- A full-fledged e-commerce platform for purchasing graphic cards, offering features like OAuth-based authentication, Stripe payment integration, and real-time order tracking. Built entirely in Django, it ensures secure transactions, efficient product management, and a smooth customer experience.
- Stack:** Django, PostgreSQL, Stripe API

SKILLS

- Frontend:** React, Next.js, Astro.js, Tailwind CSS
- Backend:** Node.js, Django, Flask
- Databases:** PostgreSQL, MongoDB
- Tools:** Git, Postman, Redux, Firebase, Supabase, Vercel, Heroku
- Programming Languages:** Python, JavaScript, TypeScript, C++, SQL

INTERESTS

- Gaming – Strategy & survival genres, game modding
- Reddit – Active in tech & programming communities
- Duolingo – Learning German via Duolingo
